Professional Summary

- ❖ 5+ years of experience in Software Development in both Frontend and Backend Development
- ❖ Frontend Expertise: React, React Hooks, HTML, Webflow, JavaScript, TypeScript, Tailwind, Bootstrap, Mantine
- ❖ Backend Expertise: JavaScript, PHP, GraphQL, Express JS, Node JS
- ❖ Database Management: MongoDB, Firebase, PostgreSQL, MySQL, Cube JS
- ❖ QA Testing: Playwright, Jest, Storybook, Testproject, Chrome Dev Tools and Extensions
- ❖ UI/UX: Figma, Adobe XD
- ❖ Workflow Automation: HubSpot, Make, Zapier, Temporal IO, n8n, Inngest
- ❖ DevOps: Docker, AWS, Github, Digital Ocean, Azure
- ❖ Others: OpenAI SDK, Shopify, Redis, BullMQ

Work Experience

Fullstack Web Developer

2025 - Present

Ethical Hire

- ❖ Run end-to-end and unit testing in PHP via XDebug
- ❖ Implement client requirements for Frontend and Backend using CodeIgniter 4
- ❖ Manage Digital Ocean droplet for running the server
- ❖ Test and review teammate's output in Github Pull Request

Fullstack Web Developer

2025

Art of Leads

- ❖ Run end-to-end and unit testing in TypeScript via Storybook and Jest
- ❖ Implement client requirements for Frontend and Backend using Redwood JS
- ❖ Manage Digital Ocean droplet for running the server
- ❖ Test and review teammate's output in Github Pull Request

Senior Backend Web Developer

2024

Spraken Takken Industries

- Work with Frontend Developers to integrate Azure Functions with React Web App deployed in Azure SWA
- Supervise and maintain codebase
- Train and mentor Junior Developers
- Create solutions for features in Azure's environment
- Test and review teammate's output in Github Pull Request

Fullstack Webflow Developer

2023 - 2025

Brylliant Solutions

- Work with peers for developing Web Apps using Webflow
- Supervise and maintain codebase
- Create solutions for features beyond Webflow's capability

Senior Fullstack Web Developer

2023 - 2024

The Freelance Movement Tribe

- Run end-to-end and unit testing in TypeScript via Storybook and Jest
- Spearhead solutions development for our clients' Web Application via Redwood JS
- Train and mentor Junior Developers
- Supervise and maintain codebase

Mid-Level Web Developer

2022 - 2023

Fasttrack Solutions Inc.

- ❖ Run end-to-end and unit testing in TypeScript via Storybook and Jest
- ❖ Spearhead solutions for our clients' Web Application needs using Redwood JS
- ❖ Assist my Seniors and Team Leaders for development and deployment
- ❖ Own tickets for fix and feature

Junior Web Developer

2021 - 2022

Netfluence Software Development

- ❖ Spearhead solutions for our clients' Web Application needs using HubSpot CMS and CRM
- ❖ Create Reports and Workflows in HubSpot CRM
- ❖ Assist my Seniors and Team Leaders for development and deployment

Technical Skills

Frontend Development

Languages: HTML, CSS, JS, PHP, HubL, Liquid (Shopify)

Frameworks: React JS, Zustand, Webflow, HubSpot CMS

UI Libraries: Tailwind, Bootstrap, Mantine

Backend Development

Languages: Node JS, PHP, TypeScript

Frameworks: Express JS, CodeIgniter 4, Azure Functions

APIs: RESTful, GraphQL, Realtime

Auth: JWT, OAuth, Auth0

Database and Caching

SQL: PostgreSQL, MySQL

NoSQL: MongoDB, CosmoDB

Cache: Redis

ORM: Prisma, Mongoose

DevOps & Cloud

Cloud: AWS, Vercel, Digital Ocean, Azure

Container: Docker

CI/CD: Github Actions

Monitoring: Digital Ocean Dashboard

AI & Machine Learning

Language: TypeScript

Frameworks: OpenAI SDK

AI APIs: OpenAI

Applications: AI Medical Diagnosis

Tools & Methodologies

Version Control: Git, Github

Testing: Playwright, Storybook, Jest, Testproject

Architecture: Microservices, MVC

Key Projects

Atlas

Developed: 2023 Team: 3 Position: Senior Fullstack Developer

Tech: Redwood JS (React + GraphQL), Prisma, PostgreSQL, Vercel, AWS

Learning Management System for a Community called The Freelance Movement Tribe founded by John Pagulayan.

This is a Community/CRM/LMS app for Tribe Freelancers. Visit ATLAS at <https://tfmt.ph/>.

Frontend:

- Developed UI using React JS
- Integrated payment gateway [Xendit](#)
- Includes Dashboard, Gamification, Courses, and Blogs

Backend:

- Developed functions using Prisma ORM with GraphQL API
- Integrated payment gateway [Xendit](#) for verification of payments
- PostgreSQL for database with Redis for caching and Background Processes

MediBot

Developed: [2025](#) Team: [1](#) Postion: [Fullstack Developer](#)

Tech: [Redwood JS \(React + GraphQL\)](#), [Prisma](#), [PostgreSQL](#), [Digital Ocean](#)

A modern Medical Clinic Management System built with Redwood JS. This system features AI-powered patient diagnosis assistance, intelligent appointment scheduling, and comprehensive medical records management.

The dashboard provides real-time analytics on patient demographics, appointment trends, and resource utilization. Healthcare providers can efficiently manage patient records, track lab results, and generate detailed medical reports while maintaining HIPAA compliance.

Frontend:

- Developed UI using React JS
- Integrated payment gateway [Stripe](#) and [GoCardless](#)
- Includes Dashboard, Quick Consultation Management, Patient Management, Labtest Extraction and Diagnosis

Backend:

- Developed functions using Prisma ORM with GraphQL API
- Integrated payment gateway [Stripe](#) and [GoCardless](#) for verification of payments
- PostgreSQL for database with Redis for caching and Background Processes

Cooperative Online Appointment Booking System

Developed: 2021 Team: 1 Postion: Fullstack Developer

Tech: CodeIgniter 4, Digital Ocean

This Web Application is an appointment booking website for a Cooperative Business in Lagonoy, Camarines Sur. This Web App has a Client and an Admin interface. Made with CodeIgniter 4.

Frontend:

- Developed UI using HTML in PHP
- Includes Dashboard, Consultation Management, Client Management

Backend:

- Developed functions using CodeIgniter 4 ORM

Memorial Park Map and Appoinment System

Developed: 2021 Team: 1 Postion: Fullstack Developer

Tech: CodeIgniter 4, Digital Ocean

This Web Application is a Mapping and Appointment System for Katoninongan Cemetery in San Jose, Camarines Sur. It has coordinates for the deceased that can be searched by their relatives. Made with CodeIgniter 4.

Frontend:

- Developed UI using HTML in PHP
- Includes Dashboard, Consultation Management, Client Management

Backend:

- Developed functions using CodeIgniter 4 ORM
